

CME and Workshops

1. Role of ATG and HSCT in Aplastic Anemia patients: (January 24, 2026)

- Dr. Shweta Pathak, Associate Professor, Pediatric Hematologist-Oncologist, and BMT physician from NSCB Medical College, Jabalpur, was invited to the Department of Medicine, SSMC Rewa, by Prof. P.K. Baghel for a talk on “*Role of ATG and HSCT in Aplastic Anemia Patients.*”
- The session was attended by Dr. Indurkar, faculty members, and postgraduate students, and was highly interactive, with a focus on practical management.
- Simultaneously, a free HLA typing camp was conducted in the Department of Pediatrics (PHO Daycare Center) under the supervision of Dr. Naresh Bajaj, benefiting thalassemia patients.

2. International Childhood Cancer Day (February 15, 2026)

- International Childhood Cancer Day was celebrated in the Department of Pediatrics, S.S. Medical College, Rewa (MP), under the guidance of Dr. Naresh Bajaj (HOD), in the presence of Dr. Karan Joshi and other faculty members. The event included the participation of pediatric cancer patients and their parents, who shared their treatment journeys. Cancer survivors were felicitated by CanKids India NGO, making the occasion inspiring and encouraging for patients and their families.

3. “More Than You Can Imagine”: (March 13, 2026)

- The workshop “*More Than You Can Imagine*” (March 13, 2026) on awareness and sensitization

of healthcare professionals on rare diseases was organized by the Department of Pediatrics, SSMC Rewa, in collaboration with AIIMS Bhopal (COE for Rare Diseases) and the Ministry of Health and Family Welfare.

- It was led by Dr. Sunil Agarwal (Dean) and Dr. Naresh Bajaj (HOD Pediatrics), with contributions from Dr. Garima Goel, Dr. Bhavna Dhingra, Dr. Gaurav Tripathi, and the pediatric team.
- The workshop focused on early diagnosis, clinical challenges, genetic aspects, referral systems, and national policies, with expert lectures and case-based discussions to improve clinical decision-making.

4. Training on Rational Use of Blood and its Components: (March 17, 2026)

- This event, with the tagline “*Component therapy is better remedy,*” was organized by the Blood Bank, Department of Pathology, SSMC Rewa.
- It was conducted under the guidance of Dr. Sunil Agarwal (Dean), Dr. Rahul Mishra (Superintendent), and Dr. S.K. Sutrar (HOD Pathology), with sessions by Dr. Shruti, Dr. Jagannath Jatav, and Dr. Vikas.
- The workshop focused on appropriate indications, preparation, storage, and clinical use of blood components, emphasizing safe transfusion practices and prevention of reactions.
- It included academic lectures, practical insights, and case-based discussions, aiming to promote evidence-based transfusion practices and patient safety.
